PROFILE INFO

As an IT professional with a deep passion for both software and hardware, I thrive in environments where innovation and technology intersect. My proficiency in coding, coupled with a robust understanding of computer systems, allows me to tackle complex problems and develop efficient solutions. Currently, I am honing my skills in cybersecurity, focusing on protecting systems and networks from potential threats. My dedication to continuous learning and staying updated with the latest industry trends ensures that I bring a comprehensive and proactive approach to every project I undertake.

- Network Error Fixing.

TOP PROJECTS

CHAT APPLICATION

DEC 2023 - JAN 2024

- Developed a robust and interactive real-time chat application utilizing **PHP**, **CSS** & **JavaScript** (<https://github.com/Zambagarrah/Chat-Application>).
- The application features seamless user experience through a responsive interface, enabling real-time message exchange, user authentication, and secure data handling.
- The project demonstrates my proficiency in full-stack web development, incorporating both front-end and back-end technologies, with a focus on creating scalable and efficient solutions.

E-COMMERCE WEBSITE

MAR 2024 - MAY 2024

- Developed a comprehensive website leveraging **React JS** for the front-end and **Django** for the back-end.
- The platform features a user-friendly interface with seamless navigation, secure user authentication, and efficient product management. Integrated functionalities include product catalog, shopping cart, order management, payment gateway integration, and customer reviews.
- Managed a team of two to implement push notifications and improve app performance.
